The T3B Guru

Mr. Keane Lee

Keane Lee, a self-made millionaire, is the founder of T3B System, a proprietary system that tracks the price movement of stocks and derivatives before they break up or down, thus profiting in both buy and sell-short positions. He is highly proficient in intraday and short term swing trading in stocks, CFDs, Futures, Options and Forex.

He formulated the first system in 1996 and vigorously back-tested, forward-tested, evaluated and refined the system. He simplified it for personal use in 1997. He has since become a multi-millionaire through trading and investing using his formulated system.

Keane and his system have helped many beginners to intermediate or aggressive traders to achieve wealth in the stock & money market. He has developed comprehensive systems necessary for financial success in financial markets. The T3B system is practiced widely in Singapore, Malaysia, and Thailand. In 2009, Dr. Shoeb Burhani, a T3B student in Singapore, brought the system to India.

The T3B System has created over 1000 millionaires. You can be the next..

“It is too risky and I don't want to lose my hard-earned money again.”

Many people have lost their money on the stock markets by acting on unreliable information without hard facts. T3B System has been back-tested rigorously to give you the right inputs based on facts and not feelings.

“I don't have the time to keep track of the market.”

When you come to T3B, the system works on End-of-Day data, so there is no pressure on you to watch the market as it unfolds. You work with the T3B system's fail-proof trending system that spots the potential stocks for you. If you have 2 hours a week, that is all you need to make money.

“There is nothing more to learn. I have tried all the methods and means.”

Learning never ends and while you may think you know it all, you are still losing money because you do not have a consistent investment strategy. T3B System brings discipline of investment based on consistent strategy of when to buy and when to cut losses.
